

Despair

When I walk the street
when I talk the tweet
when I'm me with all of you
I feel lost I feel my heart is waisted
I feel angry I cry oh sweet baby
I cry oh oh oh why should it be so

I feel so low I feel so low low low
I fell low I feel so low low low
I feel low
I wanna let myself go

despair fill me with dread
despair
throw me
over the edge of my life
(its) over

Told you so many lies
Twisted so many cries
whem I'm true with all of you
I'm just a guy you wanna me to be
I feel angry I cry oh please
I cry oh oh oh oh please let me be

Now has come the day
it's time for me to lay
I'll be gone at sunset with the sun
Please dont hold me I'm going away
Please dont hold me I'll be fine anyway
Please don't cry oh oh I'm happy to go
