

How dare you ?

People are dying
people are suffering
we're at a beginning of a mass shooting
all you can talk about is money
and fairy tales of eternity

How dare you ? How dare you ?
You ! How dare you ? How dare you ? You !

The men in black suits sit opposite one another
grunting, menacing, imploring, shrugging
living up in a nest up the tree of success

How dare you ? How dare you ?
You ! How dare you ? How dare you ? You !

The men in black suits despise the world
in their golden thrones with their golden mother whores.

How dare you ? How dare you ?
You ! How dare you ?

She's just a girl just a sweet little teen
she's telling you a truth you don't wanna foreseen x2

How dare you ? You ! How dare you ? You !

The men in black suits despise the world
in their golden thrones with their golden mother whores.

How dare you ? How dare you ? You !
