

## Killers

Load up guns  
play along with us  
It sure will be fun  
to scare the shit out of these fuckers

The three men are loud  
stroking the bullets in their hands  
fear wont show  
on their juvenile faces

The girl is too young to be bored  
posing like a baby woman  
she looks self assured  
She has seen it all

The girl with a red mouth  
she shines like gold  
she's offered herself  
tonight she'll be  
the trophy for the killer
