

Your blows

There was a time when you loved me
that was the time we were happy to be
to be together

See what you took away from me
starting from my dignity
you broke my heart
you broke my bones
you broke all of me

Give me give me
give me back my soul
You were a bully
in a china hall
(my body under your blows x2)

There was a time I was scared of you
that was the time you were nasty to me
nasty to me

See what you took away from me
starting from my dignity
you broke my heart
you broke my bones
you broke all of me

Give me give me
give me back my soul
You were a bully
in a china hall
(my body under your blows x2)
